The organization and administration of the graduate program in biophysics are the responsibility of the Biophysics Interdepartmental Group (BIG). The group consists of those members of the graduate faculty whose research interests lie wholly or partly in biophysics. Biophysics spans all areas of the life sciences from molecular structure to human biology and uses the ideas and techniques of the physical sciences to solve biological problems. The specific sub-disciplines of BIG are molecular, cellular, structural, and computational biophysics.

**Administrative Staff**

**Director and Graduate Program Coordinator**
Hermann Eberl (MacN 508, Ext. 62622)  
heberl@uoguelph.ca

**Graduate Program Assistant**
Janice Ilic (207 MacNaughton, Ext. 58176)  
big@uoguelph.ca

**Graduate Faculty**

*This list may include Regular Graduate Faculty, Associated Graduate Faculty and/or Graduate Faculty from other universities.*

- **Josef D. Ackerman**  
  B.Sc. Toronto, MA SUNY, PhD Cornell - Professor  
  Graduate Faculty

- **Madhur Anand**  
  B.Sc., PhD Western Ontario - Professor  
  Graduate Faculty

- **Daniel A. Ashlock**  
  B.Sc. Kansas, PhD CalTech - Professor  
  Graduate Faculty

- **France-Isabelle Auzanneau**  
  Maitrise, DEA, PhD Paris XI-Orsay - Professor  
  Graduate Faculty

- **Leah Bent**  
  B.Sc., M.Sc. Guelph, PhD British Columbia - Associate Professor  
  Graduate Faculty

- **Leonid S. Brown**  
  M.Sc., PhD Moscow State - Professor  
  Graduate Faculty

- **Stephen H. M. Brown**  
  BHK, MHK Windsor, PhD Waterloo - Associate Professor  
  Graduate Faculty

- **John Dawson**  
  B.Sc. Wilfrid Laurier, PhD Alberta - Professor  
  Graduate Faculty

- **John R. Dutcher**  
  B.Sc. Dalhousie, M.Sc. British Columbia, PhD Simon Fraser - Professor  
  Graduate Faculty

- **Animesh Dutta**  
  B.Sc. Bangladesh, MEng Thailand, PhD Dalhousie, P.Eng - Professor  
  Graduate Faculty

- **Hermann J. Eberl**  
  Dipl. Math (M.Sc.), PhD Munich Univ. of Tech. - Professor  
  Graduate Faculty

- **Khashayar Ghandi**  
  B.Sc. Shiraz (Iran), M.Sc. Tehran (Iran), PhD Simon Fraser University - Professor  
  Graduate Faculty

- **Todd E. Gillis**  
  B.Sc., M.Sc. Guelph, PhD Simon Fraser - Professor and Associate Dean  
  Research, College of Biological Science  
  Graduate Faculty

- **Susan Glasauer**  
  B.Sc., M.Sc. California, PhD Munich - Associate Professor  
  Graduate Faculty

- **Steffen P. Graether**  
  B.Sc., M.Sc. Queen's - Professor  
  Graduate Faculty

- **Amy L. Greer**  
  B.Sc., Mount Allison, M.Sc., Trent, PhD Arizona State - Associate Professor  
  Graduate Faculty

- **Marc Habash**  
  B.Sc. Toronto, M.Sc. Western, PhD Guelph - Associate Professor, Environmental Sciences  
  Graduate Faculty

- **Lorraine C. Jadeski**  
  B.Sc. Guelph, M.Sc. Waterloo, PhD Western - Associate Professor  
  Graduate Faculty

- **Cezar Khursigara**  
  B.Sc. Ryerson, PhD McGill - Associate Professor  
  Graduate Faculty

- **Stefan W. Kycia**  
  B.Sc. McGill; MS Pennsylvania; PhD Iowa - Associate Professor  
  Graduate Faculty

- **Vladimir Ladizhansky**  
  BS Moscow Institute of Physics and Technology; MS, PhD Weizmann Institute of Science (Rehovot, Israel) - Professor  
  Graduate Faculty

- **Anna T. Lawniczak**  
  M.Sc. Wroclaw, PhD Southern Illinois - Professor  
  Graduate Faculty

- **Huiyan Li**  
  BEng Harbin, MASc Victoria, PhD McGill - Assistant Professor  
  Graduate Faculty

- **Alejandro G. Marangoni**  
  B.Sc. McGill, PhD Guelph - Professor  
  Graduate Faculty

- **A. Rodney Merill**
Biophysics

Students may be admitted to the MSc program in biophysics from a range of undergraduate programs, including physics, biology, biochemistry, microbiology, chemistry, mathematics, engineering, or computing science. To be considered for admission, applicants should meet the minimum requirements of a four-year honours degree with a 73% (B) average during the final two years of study. Applicants should briefly indicate their research interests and, if possible, their preferred advisors.

Program Requirements
Students in the MSc program will be under the guidance of an interdepartmental advisory committee. A total of 1.5 credits are required, one of which is usually BIOP*6000 Concepts in Biophysics. In addition, all students are required to complete the seminar course BIOP*6010 Biophysics Seminar. The advisory committee may require additional courses. An average of 70% (B-) or better must be obtained in the prescribed courses. Further information may be obtained from the chair of the group. When the course work is satisfactorily completed, the submission and successful defence of an appropriate thesis on an approved topic completes the requirements for the MSc in Biophysics.

PhD Program

Admission Requirements
Applicants for the PhD program should have a recognized master’s degree in an appropriate field, with a 77% (B+) average in their postgraduate studies. Applicants should briefly indicate their area of research interest and preferred advisor(s). It is often beneficial for applicants to talk with potential advisors before submitting an application.

Direct admission to the PhD program may be permitted for applicants holding a bachelor’s degree with high academic standing. Students enrolled in the master’s degree program who achieve a superior academic record and show a particular aptitude for research may be permitted to transfer to the PhD program. The application to transfer should be made to the chair of the biophysics program between the end of the second semester and the end of the fourth semester of work towards the master’s degree.

Program Requirements
Students in the PhD program will be under the guidance of an interdepartmental advisory committee. For students who completed the MSc degree in a program other than Biophysics at the University of Guelph, a total of 1.0 graduate course credits are required, one of which is usually BIOP*6000 Concepts in Biophysics. For students who transfer directly into the PhD program from the MSc program in Biophysics, or who complete the MSc program in Biophysics at the University of Guelph, no additional course credits are required. In the case of students who enter the PhD program from the BSc degree, 1.5 graduate course credits are required, one of which is BIOP*6000 Concepts in Biophysics. In addition, all students are required to complete the non-credit seminar course, BIOP*6010 Biophysics Seminar. The advisory committee may require additional courses for any student. An average of 70% (B-) or better must be obtained in the prescribed courses. As early as feasible, but no later than the final semester of the minimum duration, a PhD student is required to complete a qualifying examination to assess her or his knowledge of the subject. This examination should normally be taken within the first five semesters of registration as a PhD student. When the qualifying examination and the course work are satisfactorily completed, the submission and successful defense of an acceptable thesis on an approved topic completes the requirements for the PhD in Biophysics.
Courses

BIOP*6000 Concepts in Biophysics Winter Only [0.50]
This course will emphasize basic concepts in molecular, cellular and structural biophysics arising from key journal publications and their impact on present day research trends.

Department(s): Dean’s Office, College of Engineering and Physical Sciences

Location(s): Guelph

BIOP*6010 Biophysics Seminar Unspecified [0.00]
This public research seminar is based on presentations by all PhD students in the Biophysics program in yearly intervals after passing the qualifying exam and by all MSc students in their second year of studies. Students are required to attend all seminars presented during the semester in which they are registered for the course.

Department(s): Dean’s Office, College of Engineering and Physical Sciences

Location(s): Guelph

BIOP*6100 Scientific Communication and Research Methods in Biophysics Unspecified [0.50]
The development and refinement of the skills of scientific communication, emphasizing oral presentation and writing skills, in the context of developing a literature review or thesis proposal. All Biophysics students will normally take this within 4 semesters of entering the program.

Department(s): Dean’s Office, College of Engineering and Physical Sciences

Location(s): Guelph

BIOP*6950 Advanced Topics in Biophysics Unspecified [0.50]
This course provides opportunities for graduate students to study special topics in contemporary biophysical research under the guidance of graduate faculty members with pertinent expertise. Proposed course descriptions are considered by the Director of the Biophysics program on an ad hoc basis, and the course will be offered according to demand.

Department(s): Dean’s Office, College of Engineering and Physical Sciences

Location(s): Guelph

With approval of the Advisory Committee a student can take courses offered by other departments in Life, Physical and Engineering Sciences. Example courses could be, but not limited to:
