CRITICAL STUDIES IN IMPROVISATION

The MA and PhD programs in Critical Studies in Improvisation investigate the dynamic relationships between improvised creative practices and broader social relations in the Arts, Humanities, and Social Sciences. Coordinated by the International Institute for Critical Studies in Improvisation at the University of Guelph, the programs offer a collaborative intellectual environment where scholars in the field of improvisation studies activate new social and creative configurations of power, new strategies for facilitating social justice, and new tactics to interpret and address the ever-changing world around us. Crucially, this work is enacted through students’ critical, practical, rigorous investigation of the processes and impacts of improvised creative practices.

MA Program

The MA program draws on faculty expertise at the University of Guelph, as we all five partner sites across Canada and the USA (UBC, Regina, McGill, Memorial, and University of California, Santa Barbara), and focuses on developing broad-level skills (e.g., collaboration across multiple institutions/organizations and disciplines; internships/community placements; partnership development opportunities; intercultural engagement) with an eye to forming and deploying the skills that lead to both academic and non-academic employment.

The interdisciplinary curriculum will build competencies in research and practice across the following areas: the critical historicisation of improvised art and practice; research methods and core concepts in Critical Studies in Improvisation; the development of ethical frameworks for collaborative, community-engaged initiatives; and the development and implementation of practice-based research projects.

Admission Requirements

Applicants to the MA must hold a four-year Honours Bachelor's degree or equivalent with a minimum GPA of 75%, in a field related to their proposed study. Applicants must provide two letters of reference and will be required to submit a portfolio with a representative sampling of their best and most relevant creative, professional, and/or research practice, in relationship to the field of Critical Studies and Improvisation and to their proposed area of research. Applicants will submit a 2 page research proposal outlining their critical orientation and proposed research activity for the program of study.

Program Requirements

Students must complete 3.5 credits.

PhD Program

The PhD program draws on faculty expertise at the University of Guelph, as we all five partner sites across Canada and the USA (UBC, Regina, McGill, Memorial, and University of California, Santa Barbara), and focuses on developing broad-level skills (e.g., collaboration across multiple institutions/organizations and disciplines; internships/community placements; partnership development opportunities; intercultural engagement) with an eye to forming and deploying the skills that lead to both academic and non-academic employment.

The interdisciplinary curriculum will enhance competencies in research, practice, and teaching across the following areas: the critical historicisation of improvised art and practice; research methods and core concepts in Critical Studies in Improvisation; the development of ethical frameworks for collaborative, community-engaged initiatives; and the development and implementation of practice-based research projects. Students are required to successfully complete two qualifying examinations and a research proposal before producing and orally defending a dissertation reflecting original research on a topic that has been approved by the advisory committee.

Admission Requirements

Applicants must have achieved a grade average of at least 75% (B) in the Master's degree program. Under exceptional circumstances admission directly to a PhD program with an appropriate Honours degree alone may be granted. Applicants must provide two letters of reference and will be required to submit a portfolio with a representative sampling of their best and most relevant creative, professional, and/or research practice, in relationship to the field of CSI and to their proposed area of research. Applicants will submit a 3 page research proposal outlining their critical orientation and proposed research activity for the program of study.

Program Requirements

Students must complete 3.0 credits and successfully defend their thesis project.
