ECONOMICS

The Department of Economics and Finance offers programs of study leading to the MA and PhD degrees in the following fields:

1. Econometrics (PhD)
2. Financial Economics (MA, PhD)
3. Resources, Environment and Energy (PhD)
4. Development and Growth (PhD)
5. Applied Microeconomics (PhD)

Administrative Staff

Chair
Stephen Kosempel (725 MacKinnon, Ext. 56339)
kosempel@uoguelph.ca

Graduate Program Coordinator
Rene Kirkegaard (707 MacKinnon, Ext. 53551)
rkirkega@uoguelph.ca

Graduate Program Assistant
Stephanie Juhasz (726 MacKinnon, Ext. 53898)
sjuhasz@uoguelph.ca

Graduate Faculty

This list may include Regular Graduate Faculty, Associated Graduate Faculty and/or Graduate Faculty from other universities.

J. Atsu Amegashie
BA Ghana, MA Queen’s, MA Dalhousie, PhD Simon Fraser - Professor
Graduate Faculty

Kurt Annen
Diploma (Lic. Rer. Pol.), MA, PhD Fribourg (Switzerland) - Associate Professor
Graduate Faculty

C. Bram Cadsby
B.Sc. London, MA Queen’s, PhD MIT - Professor
Graduate Faculty

Laurent Cellarier
BA, MA Limoges (France); PhD Southern California - Associate Professor
Graduate Faculty

Talat Genc
BS, MA Bogazici, MA, Ms, PhD Arizona - Professor
Graduate Faculty

Johanna Goertz
B.Sc. Bonn, MA, PhD Ohio State - Associate Professor
Graduate Faculty

Nikola Gradojevic
B.Sc., M.Sc. Eng Novi Sad, MA Essex and CEU, PhD British Columbia - Professor
Graduate Faculty

Louise A. Grogan
B.Sc. School of Economics London, MA Catholique de Louvain, PhD Amsterdam - Professor
Graduate Faculty

Michael J. Hoy
B.Math. Waterloo, PhD School of Economics London - Professor
Graduate Faculty

Kris E. Inwood
BA Trent, MA, PhD Toronto - Professor
Graduate Faculty

Rene Kirkegaard
BA, M.Sc., PhD Aarhus - Professor
Graduate Faculty

Stephen Kosempel
BA Queen’s, MA Victoria, PhD Simon Fraser - Associate Professor
Graduate Faculty

Delong Li
BA, BS Tsinghua, MA, Peking, MA, PhD John Hopkins - Assistant Professor
Graduate Faculty

Mei Li
BA, MA Wuhan, MA, PhD Queen’s - Associate Professor
Graduate Faculty

Patrick Martin
BA UC Irvine, MA Cornell, PhD Guelph - Assistant Professor
Graduate Faculty

Alex Maynard
BA Cornell, MA, MPhil, PhD Yale - Professor
Graduate Faculty

Ross McKitrick
BA Queen’s, MA, PhD British Columbia - Professor
Graduate Faculty

Miana Plesca
B.Sc. Technical Cluj (Romania); MA Georgetown (Washington, D.C.); PhD Western - Associate Professor
Graduate Faculty

Asha Sadanand
B.Sc., MA Alberta, PhD California Institute - Professor
Graduate Faculty

Thanasis Stengos
B.Sc., M.Sc. School of Economics London, PhD Queen’s - Professor
Graduate Faculty

Yiguo Sun
B.Sc. Hebei Normal, M.Sc. Hebei Teacher’s, MA Guelph, PhD Toronto - Professor
Graduate Faculty

Francis Tapon
DES Paris, MBA Columbia, MA, PhD Duke - Professor
Graduate Faculty

Henry Thille
B.Comm. Saskatchewan, MA, PhD British Columbia - Associate Professor
Graduate Faculty

Ilias Tsiakas
BA Toronto, MA York, PhD Toronto - Professor
Graduate Faculty
MA Program

The MA program contains core courses in theory and quantitative methods.

Admission Requirements

The university requires that students have the equivalent of an honours degree at the baccalaureate level.

Admission to the MA program requires that students have a solid background in economic theory and econometrics from a recognized undergraduate program. Normally, the Department requires a 'B+' average as a minimum.

Students whose background is not in economics but who are otherwise outstanding should consult the Department website (https://www.uoguelph.ca/economics/) for further information. Applicants whose background in economics is difficult to evaluate may be granted admission as a provisional graduate student for one semester. If, at the end of the semester, the Department is satisfied with the student's progress, it will recommend to the Assistant Vice-President (Graduate Studies) that the student be transferred to regular graduate student status.

Program offices should be consulted for admission deadlines.

Program Requirements

The MA requires the completion of a minimum of 4.0 course credits. Most one-semester courses have 0.5 course credits. With approval from the Department, up to 1 credit of the required 4 credits can be taken outside the Department of Economics and Finance. However, students may, with approval, take additional courses from other Departments provided that their program includes at least six course equivalents (3.0 credits) from the Department of Economics and Finance. The minimum duration of the program is 2 semesters of full-time study as a regular graduate student.

There are two options to the MA in Economics:

i. by course work, and

ii. by course work and major research paper.

Course Work and Major Research Project

A minimum of 4.0 credits is required, including:

1. The Economics Core (1.5 credits):

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON*6020</td>
<td>Macroeconomic Theory I</td>
<td>0.50</td>
</tr>
<tr>
<td>ECON*6500</td>
<td>Microeconomic Theory MA</td>
<td>0.50</td>
</tr>
<tr>
<td>or ECON*6180</td>
<td>Econometric Methods</td>
<td>0.50</td>
</tr>
</tbody>
</table>

2. Three additional courses (1.5 credits)

3. ECON*6940 Research Project (1.00 credit)

Course Work

A minimum of 4.0 credits is required, including:

1. The Economics Core (1.5 credits):

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON*6020</td>
<td>Macroeconomic Theory I</td>
<td>0.50</td>
</tr>
<tr>
<td>ECON*6500</td>
<td>Microeconomic Theory MA</td>
<td>0.50</td>
</tr>
</tbody>
</table>

2. Five additional courses (2.5 credits). At least two courses must have substantial research components (50% or more of the total course grade).

Course Work and Major Research Project in the Field of Financial Economics

1. The Economics Core (1.5 credits):

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON*6020</td>
<td>Macroeconomic Theory I</td>
<td>0.50</td>
</tr>
<tr>
<td>ECON*6500</td>
<td>Microeconomic Theory MA</td>
<td>0.50</td>
</tr>
<tr>
<td>or ECON*6180</td>
<td>Econometric Methods</td>
<td>0.50</td>
</tr>
</tbody>
</table>

2. The Finance Core (1.5 credits):

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>FIN*6000</td>
<td>Asset Pricing</td>
<td>0.50</td>
</tr>
<tr>
<td>FIN*6200</td>
<td>Empirical Finance and Financial Econometrics</td>
<td>0.50</td>
</tr>
<tr>
<td>FIN*6300</td>
<td>Security Analysis and Portfolio Management</td>
<td>0.50</td>
</tr>
</tbody>
</table>

3. ECON*6940 Research Project (1.00 credit)

PhD Program

The objective of the PhD program is to train individuals who already have a strong background in economics to become independent and skilled researchers, in preparation for a career in academia, government or the private sector. Course offerings cover a broad range of topics...
in theoretical and applied economics. PhD candidates may write a dissertation in any of the areas of expertise of the graduate faculty in the Department.

Graduates are expected to have demonstrated competence at an advanced level in the core areas of Microeconomic theory, Macroeconomic theory, and Econometrics, to have demonstrated competence at the cutting edge of knowledge in their area of specialization and advanced competence in at least one other area, and to have demonstrated mature scholarship, research and communication abilities.

**Admission Requirements**

Applicants to the PhD program should have a master’s degree in economics with a minimum average of 80% (A-) in their postgraduate studies. Applicants without a master’s degree but with an outstanding record at the baccalaureate level, may be admitted initially to the MA program in economics. For students who achieve a superior record and show an aptitude for research, The Board of Graduate Studies, on the recommendation of the Department, may authorize transfer to the PhD program without requiring the student to complete a master’s degree.

**Program Requirements**

The program requires the satisfactory completion of a minimum of 6 core courses covering theory and, econometrics, and 4 elective field courses. The 6 theory and econometrics courses are taken in the first year. The remaining 4 courses are normally taken in the student’s second or third year and must be selected in consultation with the student’s Advisory Committee. Students with an existing master’s degree awarded by the Lang School of Business and Economics, who have already successfully completed some of the required courses as part of their graduate program, may have those course requirements waived with the permission of the Graduate Program Coordinator. In addition, students must complete a seminar course in the Fall and Winter semesters of their second and third year. Participation in the seminar course is encouraged in the fourth year. The following sequence of milestones represents the typical path through the PhD program.

**Year I: Core Courses**

Students must complete the following courses in preparation for the comprehensive examinations in economic theory:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON*6140</td>
<td>Econometrics I</td>
<td>0.50</td>
</tr>
<tr>
<td>ECON*6160</td>
<td>Econometrics II</td>
<td>0.50</td>
</tr>
<tr>
<td>ECON*6000</td>
<td>Microeconomic Theory I</td>
<td>0.50</td>
</tr>
<tr>
<td>ECON*6010</td>
<td>Microeconomic Theory II</td>
<td>0.50</td>
</tr>
<tr>
<td>ECON*6020</td>
<td>Macroeconomic Theory I</td>
<td>0.50</td>
</tr>
<tr>
<td>ECON*6040</td>
<td>Macroeconomic Theory II</td>
<td>0.50</td>
</tr>
</tbody>
</table>

The comprehensive examinations in economics theory are written at the end of Year 1.

**Year II: Dissertation Proposal**

After the theory comprehensive exams are passed, students must prepare a PhD proposal under the supervision of a faculty member. Proposals are presented to the Department at a symposium, and upon acceptance the Graduate Program Coordinator will notify the Assistant Vice-President (Graduate Studies) that the student has passed the "Qualifying Examination" requirement as set out by the Faculty of Graduate Studies. At this point, the student becomes a "candidate" for the PhD.

Students are also required to complete the ECON*6900 Doctoral Research Seminar in the Fall and Winter semesters.

**Year III and IV: Thesis**

Submission and defence of an acceptable thesis on a topic approved by the student’s advisory committee completes the requirements for the PhD. The thesis is expected to be a significant and original contribution to knowledge in its field and must demonstrate scholarship and critical judgement on the part of the candidate.

Students are also required to complete ECON*6900 Doctoral Research Seminar in the Fall and Winter semesters of their third year and are encouraged to participate in their fourth year.

**Collaborative Specializations**

**International Development Studies**

The Department of Economics and Finance participates in the International Development Studies (IDS) collaborative specialization. Applicants for this collaborative specialization enter through one of the participating departments; course selections are based, in part, on the applicant’s primary discipline. Those faculty members in the Department of Economics and Finance whose research and teaching expertise includes aspects of international development studies may serve as advisors for these MA and PhD students. Please consult the International Development Studies (calendar.uoguelph.ca/graduate-calendar/collaborative-specializations/international-development-studies/) listing for a detailed description of the collaborative specialization including the special additional requirements for each of the participating departments.

**Courses**

**ECON*6000 Microeconomic Theory I Unscheduled [0.50]**

A graduate course in microeconomics, intended for PhD students, presenting a rigorous treatment of the analysis of choices for consumers and producers with and without strategy and uncertainty, partial and general equilibrium, and the fundamental theorems of welfare economics.

Department(s): Department of Economics and Finance
Location(s): Guelph

**ECON*6010 Microeconomic Theory II Unscheduled [0.50]**

Advanced topics in modern microeconomics to include elements of game theory, information economics, economics of risk and uncertainty, the theory of incentives and others.

Prerequisite(s): ECON*6000
Department(s): Department of Economics and Finance
Location(s): Guelph

**ECON*6020 Macroeconomic Theory I Unscheduled [0.50]**

A first graduate course in macroeconomics, presenting a rigorous introduction to the tools and basic models of dynamic general equilibrium theory. The topics covered include economic growth and development, economic fluctuations, and monetary and fiscal policies.

Department(s): Department of Economics and Finance
Location(s): Guelph
ECON*6040 Macroeconomic Theory II Unspecified [0.50]
This course considers the dynamics resulting from intertemporal
optimization models. Foundations of unemployment theory. Approaches
to business cycles. Models of long-run growth.
Prerequisite(s): ECON*6020
Department(s): Department of Economics and Finance
Location(s): Guelph

ECON*6050 Introduction to Econometric Methods Unspecified [0.50]
Introduction to the specification, estimation and testing of economic
models. Topics include the classical linear regression model, t tests,
structure tests, specification error, the consequences of the violation of
the classical assumptions, detection and correction of autocorrelation
and heteroscedasticity.
Department(s): Department of Economics and Finance
Location(s): Guelph

ECON*6060 Mathematical Methods for Economics Fall Only [0.00]
This course is designed to provide students with the necessary
mathematical tools to follow the content of the core economics and
econometrics courses in the MA program and successfully complete
them. The material covered will include advanced topics in linear algebra,
multivariate optimization techniques and comparative statics.
Department(s): Department of Economics and Finance
Location(s): Guelph

ECON*6090 Game Theory Unspecified [0.50]
This course introduces the student to game theory, which is an important
tool for modelling economic situations with multi-person interaction.
Economic applications such as oligopoly, bargaining, auctions, and public
goods provision will be discussed. Broader applications to voting games,
candidate strategy, war games, and parlour games will also be briefly
discussed. Students need to be very familiar with optimization and single
person decision-making.
Department(s): Department of Economics and Finance
Location(s): Guelph

ECON*6100 Experimental Economics Unspecified [0.50]
This course examines the use of the experimental methodology in
economics. We will study how experiments have been used to test
theories in many subfields within economics. In the process, students
will learn how to construct and run economics experiments and analyze
experimental data.
Department(s): Department of Economics and Finance
Location(s): Guelph

ECON*6110 Mathematical Economics Unspecified [0.50]
This course introduces students to the mathematical techniques used
in advanced economic analysis. Topics covered in any year: analysis
of dynamic economic models and optimization in dynamic economic
models.
Department(s): Department of Economics and Finance
Location(s): Guelph

ECON*6140 Econometrics I Unspecified [0.50]
Topics include a review of the classical linear regression model,
applications of generalized least squares, maximum likelihood methods
and various statistical test procedures.
Department(s): Department of Economics and Finance
Location(s): Guelph

ECON*6160 Econometrics II Unspecified [0.50]
Topics include general method of moments as a method of estimation
and inference, instrumental variables, nonlinear estimation and
simultaneous equations. Also, more specialized topics such as limited-
dependent-variable models and time series methods may be covered.
Prerequisite(s): Students must complete ECON*6140 obtaining a
minimum grade of 65%.
Department(s): Department of Economics and Finance
Location(s): Guelph

ECON*6170 Topics in Econometrics Unspecified [0.50]
This is an advanced econometrics topics course that covers the
area of non-parametric and semiparametric estimation and testing
of econometrics models, including time series and panel data
semiparametric models.
Prerequisite(s): Student must complete ECON*6160 and obtain a
minimum grade of 65%.
Department(s): Department of Economics and Finance
Location(s): Guelph

ECON*6180 Econometric Methods Unspecified [0.50]
This course follows ECON*6050. It covers estimation by instrumental
variables, estimations of simultaneous systems, asymptotic distribution
theory, maximum likelihood estimation, binary choice and limited
dependent variable models, and issues in time series analysis.
Department(s): Department of Economics and Finance
Location(s): Guelph

ECON*6200 Economic History Unspecified [0.50]
This course considers topics in economic history which vary from year to
year. The emphasis will be usually on late-19th or 20th century topics and
often involves a world emphasis. Student presentations and papers form
a large part of the course.
Department(s): Department of Economics and Finance
Location(s): Guelph

ECON*6300 International Trade Theory Unspecified [0.50]
This course provides a rigorous treatment of both positive and normative
aspects of trade theory through extensive use of general equilibrium
models under varying assumptions. Topics may also include barriers
to trade, international factor movements, growth and development, and
strategic trade policy.
Department(s): Department of Economics and Finance
Location(s): Guelph

ECON*6350 Economic Development Unspecified [0.50]
This course examines economic development from an international
perspective: theories, history, policies and prospects.
Department(s): Department of Economics and Finance
Location(s): Guelph

ECON*6370 Economic Development in Historical Perspective Unspecified [0.50]
This course will examine the experience of economic development
focusing on the emergence of the Third World. Topics for discussion
will vary from year to year; they may include the impact of trade
expansion during the eighteenth and nineteenth centuries, the role
of manufacturing as a leading sector, statist vs. the new classical
approaches to government policy, and others.
Department(s): Department of Economics and Finance
Location(s): Guelph
ECON*6400 Public Finance Unspecified [0.50]
This course surveys the normative theory of the public sector. Topics may include public expenditure theory, tax theory, cost benefit analysis and fiscal federalism.

Department(s): Department of Economics and Finance
Location(s): Guelph

ECON*6490 Money and Banking Unspecified [0.50]
This course studies monetary economics using overlapping generations models, MIU models and CIA models. More specifically, we will study major issues in money and banking, such as the role of money and banks, the cost of inflation, and the optimal monetary policies.

Department(s): Department of Economics and Finance
Location(s): Guelph

ECON*6500 Microeconomic Theory MA Unspecified [0.50]
A first graduate course in microeconomics, intended for Master students, presenting a rigorous treatment of the analysis of choices in markets and organizations. It covers consumer theory, general equilibrium, uncertainty, game theory, and information economics.

Restriction(s): Restricted to MA students only.
Department(s): Department of Economics and Finance
Location(s): Guelph

ECON*6580 Environmental Economics Unspecified [0.50]
A topics course concerning the interrelationships between economic activities and the state of the natural environment. Topics may include: pollution and economic growth; energy use and environmental quality; international trade and pollution; policies for controlling pollution; techniques for assessing the benefits of environmental improvement.

Department(s): Department of Economics and Finance
Location(s): Guelph

ECON*6700 Industrial and Market Organization Unspecified [0.50]
The major topics of industrial organization are analyzed from both a game theoretic perspective and from a Structure-Conduct-Performance perspective. Typical topics include: oligopoly theory, determinants of industrial structure, Coase theorem, market entry, advertising, research and development, product differentiation, and price discrimination.

Department(s): Department of Economics and Finance
Location(s): Guelph

ECON*6750 Managerial Economics Unspecified [0.50]
The course introduces students to the latest developments in the economic analysis of the inside workings and organization of firms. The course tries to explain the diversity of economic organizations, and more generally why economic activity is sometimes carried out through firms and sometimes through markets. For graduate students outside the Department of Economics and Finance.

Department(s): Department of Economics and Finance
Location(s): Guelph

ECON*6770 Financial Management Unspecified [0.50]
This course examines the implications of financing decisions made by firms in a world of uncertainty. Topics such as capital budgeting, capital structure, dividend policy, market efficiency and capital asset pricing will be analyzed from the perspective of corporate finance and portfolio management theory.

Department(s): Department of Economics and Finance
Location(s): Guelph

ECON*6800 Environmental Economics Unspecified [0.50]
A topics course concerning the interrelationships between economic activities and the state of the natural environment. Topics may include: pollution and economic growth; energy use and environmental quality; international trade and pollution; policies for controlling pollution; techniques for assessing the benefits of environmental improvement.

Department(s): Department of Economics and Finance
Location(s): Guelph

ECON*6810 Economic Theory of Natural Resources Use Unspecified [0.50]
This course examines economic models of the use of non-renewable resources to analyze issues such as resource conservation, sustainable development, taxation of resource rents, and price determination in resource markets.

Department(s): Department of Economics and Finance
Location(s): Guelph

ECON*6900 Doctoral Research Seminar Fall and Winter [0.25]
This is a seminar course for PhD students. Students will discuss papers on the research frontier that have recently been published in top journals. Students will also present their own work.

Location(s): Guelph

ECON*6930 Reading Course Unspecified [0.50]
In some circumstances, students may arrange to take a reading course under the direction of a faculty member.

Department(s): Department of Economics and Finance
Location(s): Guelph

ECON*6940 Research Project Unspecified [1.00]
All students who choose the research project option in the MA program will register in this course. Research projects are written under the direct supervision of a faculty member. Normally, research projects are completed within one or two semesters. Students must make a presentation of their work and a copy of the final report must be submitted to the Department before the final grade is submitted to the Office of Graduate and Postdoctoral Studies.

Department(s): Department of Economics and Finance
Location(s): Guelph

ECON*6960 Special Topics in Economics Unspecified [0.50]
This course provides opportunities for graduate students to study topics in economics that are not covered in other graduate-level economics courses. This course is offered when there are both available faculty and sufficient interest among students.

Prerequisite(s): Students must complete ECON*6010 ECON*6040 ECON*6160. Minimum grade 065.
